## The Tortoise Ride

### Tortoise Ride Friday Sept 17.

12 riders and 1 pillion fronted for a cold but dry ride to Balingup for a very welcome pie & coffee. The first casualty of the day was Bob Mitchell's Triumph which ran out of sparks before Balingup. The second, more serious casualty occurred on the way home when Dennis Herrick left the road and ended up in a fence requiring ambulance attendance and airlifting to BRH. Subsequently being transferred to Fiona Stanley for an operation on his injured hand. Fortunately Dennis is now doing well and we wish him a speedy recovery. Thanks go to the club members who helped at the accident scene and to John Keenan who collected both bikes. Also to Wayne & Denise Phillips who acted as TEC.

### Ross Eaton

## Presidents Update

Here's a few points I'd like to keep you up to date on:

The AGM has been and gone with all committee positions now filled except one general committee member. This position is an easy one for anyone who would like to get a little more involved in your club. It just requires attendance at committee meetings on the first Wed evening of each month, 6:30PM at the clubrooms. At these meetings you will be involved in discussions to do with the administration and running of the club, so you can contribute to the direction the club takes on various matters. I would like to welcome Wayne Patterson as the other new committee member who came forward after the AGM.

Two big new events are coming soon on our calendar; the WA Veteran Rally and the IHC 50th Anniversary Rally:

- The WA Veteran Rally is a week long hub rally centred on Manjimup from Sun 17 Oct to Fri 22 Oct. This started life as the National Veteran Motorcycle Rally so the programme was pretty big and the committee of over 15 people from a number of clubs have put in many hours of work. Unfortunately, the east coast Covid outbreak has forced the refunding of about half the entries so it is now a State Rally using the same format. This has meant the income will be less than the expenditure so we will be asking you at next week's General Meeting to approve using some IHC funds to support the event.

If you'd like to go along and see the spectacle of about 40 Veteran (pre 1919) motorcycles on the road, each day's ride starts from Rea Park in Johnson St, Manjimup at around 10AM. Wednesday lunchtime in the main street will also be a good viewing time. The Rally Overview in the club's online events page will give details. Sponsors or donors of prizes are being sought and invited to contact Sharon Rudler on 0429 418 854 for details of promotional opportunities.

The IHC's 50th Anniversary Celebration is another one not to be missed. This is a ride, display and Dinner on Saturday 13 Nov. Once again the info is on our events page. Entries are open for IHC members now and will open for non members after our General Meeting next Tuesday. Participation here gets you a free 50th Celebration shirt and an evening's entertainment at the Trotting Club. Sponsors or Donors for prizes are invited to contact Tammy Patterson on 0438 748 916.

We have bought and installed a new Defibrillator at the clubrooms, just inside the door. A training video will soon be on the website which I encourage everyone to view.

IHC Ladies Lunches are starting again with the first one tabled for 28 Sep at the Lord Forrest Hotel.

The Bridgetown Show is on again for this year on Sat 27 Nov and we will be seeking a show of hands at the next GM to gauge interest in attending.

We can see the sun again after one of the longest wet spells I can remember so I hope to see you out enjoying your bikes as we head towards Summer.

President, Indian Harley Club (Bunbury) Inc.

## More Sidecars

### MORE SIDE CARS.

My first sojourn into sidecars was after an 18 month hospital stay as a result of a serious motorcycle accident in 1974 where I was left unable to walk.

I went to live in Carnarvon to both recuperate and also help set up a motorcycle shop for my friend with the 147 INDIAN CHIEF and sidecar.

Keen to continue with my fishing and shooting interests I fitted a sidecar to an RV90 SUZUKI which became affectionately known to all as "The Goat Chaser".

This little unit lent a great part to my recovery and upon leaving Carnarvon a few years later, sold it to a caravan park manager to use in the park.

On returning to Bunbury in 1978 I brought a GOLDWING GL 1000 with me to use as a sidecar tractor but after riding the bike for a while could not bring myself to changing it from a great solo machine.

Last year after reaching 74 years young, and after scuffing up my BLACKBIRD a few times with my crook leg failing while parking, I decided to fit a sidecar to one of my BLACKBIRDS.

This has been an interesting technical procedure with the BLACKBIRD having the conventional aluminium ring frame as do most sport bikes, so attaching a sidecar required some inventive thinking.

I first built a steel adaptor which extended from about half way along the swing arm to the front of the engine. This 50x50x2.5 RHS is attached to the main frame at the swing arm axle/rear upper and lower engine mounts, side stand mounts, and forward to the front top engine mount. At each end of this adaptor are (2) NOLETHANE bushes with acentric centres which allow easy toe in/out adjustments as well as soft mounting the side car frame to the adaptor. Lean support is provided by (2) shafts, rose jointed to the upper part of the adaptor and to the side car frame by rubber shock absorber mounts. This also allows for easy lean out adjustment. The epoxy composite body is supported at the rear by (2) half elliptic springs and a centrally forward fitted rubber mount. The sidecar wheel is a sports bike rear with disc brake and FLEXITOR rubber axle mount. The sidecar disc also has a hand brake calliper. In order to retain the linked brake setup, I fitted another rear master cylinder in tandem to the existing rear brake cylinder.

Both rear and sidecar wheels are fitted with 190x45x17 car tyres which properly fit the bike wheels. These car tyres only require 10mm toe in (over the length of the outfit) rather than the approximate 20mm usually required. Lean out is still about 20mm which is to allow for camber in the road which is really a ball park measurement to cater for a large variation in road cambers. The outfit handles really well with the unchanged front end, only being heavy on steering on some road conditions. The bike still has clip-ons and the approximate 100mm trail for solo riding. On the open highway you can safely let go of the handlebars and although a steering damper is fitted, it is regulated to zero. To compensate for riding without a passenger I have fitted a 15l fuel tank and a 15l water tank under the body, and a car battery under the side car seat which is charged by a mounted 40watt solar panel. The outfit has adequate power and with a foot change to change down with the clutch, and a hand change to change up by throttle as my foot does not work properly, it can be exciting at times on wet roads and accelerating in traffic.....but motorcyclists survive on a little danger.

Brian McRea. IHC member.

## Midweek PM Ride (That Wasn't)

Bunbury Midweek PM Ride 15th September (That Wasn't)

Had this ride been an AM it would have survived but alas, it was a PM. One brave soul, Terry Skinner, journeyed to Pratt Rd Hall, becoming thoroughly drowned, while Richard arrived in his chariot with 4 wheels. John P. was waiting to direct riders to our house where Neville & Margaret went direct in their chariot.

Anyway the 6 of us spent the afternoon in the dry & warm solving the problems of the world.

## Leithal Ride (Postponed)
